English Department General Meeting and Freshman Welcome Party and Orientation

Hello, everyone. In a department of English literature, we held a general meeting and welcome party for students in a large lecture room on April 20th. We couldn't hold them to prevent spread of the infection of coronavirus last year, but we could hold them this year. A lot of students attended them! Thank you for attending them. In a general meeting, members of a department of English literature reported last and this year's activities. In a welcome party for students, students divided into some groups and they were excited answering questions of new students.

I hope to be held a lot of events being careful coronavirus this year.

We should make efforts to prevent spread of the infection of coronavirus for that.

The new student orientation performed on April 2 was a very meaningful time to explain to us confused by college life. Unfortunately, its scale was also reduced by the influence of the coronavirus which comes as a pandemic all over the world, like last year. We were told about classes. It was narrowed down to the basic information about college life and about facilities in the university. But this chance, when all the students of each department gathered, was also a time of the exchange between the freshmen students. It was possible to make new friends, which was important. There was a new student retreat on April 6. We meet upperclassmen of the same department and spoke about the joys of college life. It was possible to become ambitious by listening to the upperclassmen's stories about college life!

Honors students and scholarship recipients

Congratulations to these students! Their hard work paid off!

Suzuki Shigeru and Fukushi Sakura were this year's Exceptional Students.

The Honors Students were:

Fukushi Sakura, Kudo Yuriko, Yamazaki Miku,
Mikami Manaka, Suzuki Shigeru, and Matsuoka
Taisei.
